Morning Mechanical Code Lock Knob Entry Lock Key Override

A latchlock with a lever handle on the inside and knob with key bypass on the outside. A good choice for replacing a common key-in-knob lock. The hand can be changed on this lock. Comes with a 5 pin tumbler Schlage SC1 keyway cylinder for mechanical key backup at no extra cost.

Model No.MP370 Series (Non-Handed)

➤ Finish: **Satin Nickel finish**

Main Features:

- Weatherproof Stainless Steel Construction
- Backset Latch 2 3/8" (60mm) or 2 3/4" (70mm) Dead latch bolt
- Operation: Fully Mechanical Pushbutton
- Keyway 5 Pins SC 1 Keyway
- Installation: Fit Standard Door Prep, Easy replacing old lock
- Warranty: 25-yr on Mechanical; Lifetime Exterior Finish.
- The lock comes with extra wide heavy steel plates for both sides to fully cover a 2 1/8 inch hole with very small door modification

Mechanical Code Locks also come with Commercial Duty (Grade 1) Pushbutton Lever Lockset (MP500-70) in Stain Nickel Finish.
