

Heavy Duty Fingerprint Keypad Lever Locks LA9-4

Heavy Duty Fingerprint Keypad Lever Locks

Imagine securing your home or office with the latest in technology and at the same time eliminating the headache of mutual or lost keys. Now you can with Adel Biometric Door Locks. The Adel fingerprint door locks uses biometrics in order to identify and authorize registered fingerprints. With a maximum of 100 fingerprints, this Adel Fingerprint Recognition Door lock system is excellent for the home or office. Outstanding for meeting rooms, storage areas or anywhere it's impractical to distribute keys to everyone requiring access. The Adel Lock Fingerprint door lock eliminates the problem of unauthorized keys being cut at the local hardware store. Restrict access to different areas of your business or home. Have peace of mind knowing guests or service providers aren't cutting copies of your key. The Adel Fingerprint lock is made of a stainless steel surface and casting steel construct body for durability. In the event of an emergency, the lock may be opened by mechanical key. Features:

- Module type structure, only one wire to connect, easy installation;
- Low voltage alert
- With the sensor light and buzzer sounds indicators.
- Stainless steel single latch, easy to install. Installation:
- Door material: Metal Or Wooden Door
- Fit door thickness from 1-3/8" - 2.0".
- Adjustable latch: 2 3/8 or 2 3/4 inch backset.
- Fit a standard 2-1/8" diameter hole. Specifications
- Fingerprint sensor: Optical sensor
- Sensor resolution: 500 dpi
- Authentication speed: <1 second
- Authentication methods 1:N or 1:1
- FRR: =0.0001%
- Angle for putting finger: $\pm 45^\circ$
- Fingerprint scanning: Once to get one fingerprint template
- Fingerprint template: All enrolled fingerprint template will be saved while replacing the batteries
- User capacity: 138 max
- Light jam: Sunlight resistant
- Sensor surface: Optical glass with PVD coating
- Operating voltage: 4 AA alkaline batteries, DC 4.5~6.0v
- Battery life: Approx 12 months
- Temperature for storage: -25°C-85°C
- Static current: <10uA
- Dynamic current: 110mA~180mA Contents
- keys (2pcs)
- Strike (1pc)
- Cylinder Cover opener (1pc)
